

FALLBROOK GEM AND MINERAL
SOCIETY, INC.
FOUNDED 1957

REQUEST FOR CLASSROOM LESSON

The Fallbrook Gem and Mineral Society offers one-hour classes conducted by FGMS members at our facility on Fridays only. These classes include hands-on opportunities for children to learn about minerals, their hardness and their structure. Additionally they are given a tour of our Museum which focuses on the bountiful variety of San Diego County Minerals with a few minutes to look through our Gift Shop (if you wish). Please submit your request via email to drverner1@verizon.net For more information or special accommodations, contact the club office (760) 728-1130.

PREFERABLE DATES AND TIMES _____

We will contact you and let you know what days and times are available. Please understand that we have only one teacher and one day a week that is available for two classes in the morning. Because May is a very busy month for field trips, we encourage you to request your time early and/or consider other times of the year when you can bring your class. We have many \$1 and \$2 items the children can purchase if they wish. We also have grab bags available for \$3.
